POOL HOUSE, CLARKE LANE, BOLLINGTON, SK10 5AH
Proposed that the fence from Hobson House to the entrance gate to my property is reduced from 1.85m to 1.2m, length of fence is reduced by 3.5m to make the entrance to the property wider, both enhancing the safety and visual aspects. The longer run of fencing from the gate to the stone bridge which crosses Middlewood Way is reduced by 4m at the entrance gate, likewise, to enhance safety and visual aspects. The fence is then lowered for a total distance of 49.6m to a natural break where there is a large tree. At this point the fence remains the same height, 1.85m. A new internal fence is to be erected 2m from the pavement which is in keeping with the style of the local area and not obvious from the pavement. RIVER BANK / RETAINING WALL ALONG QUEEN STREET, PALMERSTON STREET, BOLLINGTON, SK10 5PW

Removal of three multi stem, self-seeded Sycamore trees and one single stem self-seeded Sycamore tree from river bank and retaining wall due to the risk of tree/wall failure. Plus potential for river blockage by debris being trapped against tree stems. Environment Agency have previously removed three other Sycamore trees close to the location in recent years but have declined to remove the remaining ones presumably due to budget restriction. However they have no objections to the work being carried out. Details of the EA officer can be provided if required.

No objection.
